

Project: Future Tech. Studios
Client: G.B. Building Solutions / Role: Joinery Fit-Out
Value: £62'000.00

Sponsored by Warrington Collegiate Education Trust, Future Tech Studio is a Studio School, a new type of state school for 14-19 year olds of all abilities, designed to better prepare young people for the working world. The Future Tech Studio provides a new and innovative approach to learning, offering a curriculum that is specifically linked to future employment opportunities in Warrington and the North West.

Sadly for Nationwide... the Main Contractor, G.B. Building Solutions, went into Administration upon completion of this project meaning that we didn't receive a single penny for all our completed works on this wonderful building.

Our free works on this project consisted of our usual Doors, Frames and Ironmongery sets, Architraves, Skirtings and Windowboards and various smaller elements of F. F. & E.
