

Newfield and Talbot High School  
Sheffield

**Description**

Further to all the high quality work Nationwide Interiors have carried out in the education sector, in this project, to accompany our traditional fit-out package, our client tasked us with the installation of a large quantity of bespoke items. Due to the bespoke nature of much of this work, this project is regarded as a 'stand out' project within Nationwide Interior's extensive education portfolio.

Our works included the supply and installation of fully finished, laminated feature door sets with ironmongery, hardwood glazed screens, shaped laminated wall protectors, skirting boards, architraves, stair inserts and strings, IPS panelling, toilet cubicles and vanity units, and mirrors.

We also installed a number of adapted items to assist students and staff with disabilities.
