

North Birmingham Academy
Full Internal Fit-Out
Lend Lease
£485'000.00

Sadly for Nationwide and Lend Lease, North Birmingham Academy was to be the final School to be completed within this fabled framework that was initially worth £1.2 Billion to the main contractor until the economic downturn bought it to a grinding halt.

This was the 10th School that Nationwide had serviced under the Birmingham B.S.F. framework from a possible 18, the remainder being shared by three other contractors.

Our works consisted of a standard Joinery Fit-out package which included Doors, Frames & Ironmongery sets, Skirtings, Architraves, Pattresses and Windowboards. We supplied a large number of Glazed & Acoustic Screens and wall linings to the Sports Hall and well as Hardwood Capping's to the Atrium Stairwell.

To finish..., we also supplied and installed numerous items to complete the Wet-room package such as Mirrors, 'Splashback' panels and all others associated elements
