

Project: H.M.P. The Mount, Hertfordshire
Client: Lend Lease / Role: Joinery Fit-Out

Value: £540,000

In January 2013, the Ministry of Justice announced that an additional 'House-block' would be constructed at HMP 'The Mount' Prison, increasing the overall capacity of the gaol. After quite a prolonged bidding process by the winning Main Contractor, Nationwide were delighted to be chosen as the preferred Internal 'Fit-Out' Contractor upon the site.

Our works within this Category 'C' prison for adult males included Specialist Doors and Frames & and High-Security Ironmongery sets, standard and acoustic Timber Screens, the complete wet-room 'fit-out' to the prison bathrooms which included I.P.S. panels and cubicles and all the associated F. F. & E. such as Mirrors, Anti-Ligature Coat Hooks and Toilet Paper holders etc.

As well as installing a large number of more common elements of F. F. & E. such as 'Black-Out' blinds to the recreational atrium.., we completed our works by supplying and installing a large package of fitted (and bespoke) 'Dojo' floor and wall protection to their 'Control and Restraint Rooms' which are vital in the subduing of vociferous tenants.
