

Nationwide were appointed to complete the full internal Joinery 'fit-out' package to a mixture of 141 No. Apartments and Townhouses upon this new and prestigious addition to the existing bohemian community at Islington Wharf

The scheme not only consisted of our standard Joinery undertakings such as Timber Doors and Frames, Ironmongery sets, Architraves and Window boards etc., ... but also a large number of the more bespoke elements of a Joinery installation and items associated with a fast moving Residential development such as this one.

These works included (but not limited to) internal Oak Staircases, internal Chipboard flooring, external Timber Cladding and T. & G. boarded Ceilings, Larch Balustrades and Rails to steel supports (steel by others), fitted Kitchens including all 'White Goods', Siberian Larch Fencing within which we also supplied and installed a number of Oak Allotment Planters. All in all this was a wonderfully diverse project for Nationwide which we feel really encapsulates the full range of services we can offer to this rapidly expanding sector.

Project: Islington Wharf Apartments, Manchester
