

**Bullring Shopping Centre
Birmingham**

Description

Nationwide Interiors was very proud to secure one of our most prestigious retail projects at the Bullring Shopping Centre in Birmingham. Our package on this landmark building in the heart of the city included the supply and installation of a set of bespoke Douglas fir pergolas to the terrace at level 9 of the development.

They were formed using 400mm diameter columns with 400mm x 200mm beams and rafters.

We were also engaged to supply and install Opepe hardwood screens and escape doors to the Debenhams store.
