

"Welcome to the finest training facility in world football" is the tag-line that Manchester City are now using to describe their new state-of-the-art £200m training complex facility adjacent to the Etihad Stadium, East Manchester.

Also operating beneath the banner 'A Global Centre of Excellence', Bam Construction were under strict orders from the Club that as

much of the 'Material Spend' as possible must be spent using local Suppliers and Sub-Contractors within a 50 mile radius of the project ..., they finally reached a total of approaching an incredible 98%!

Our package included our standard Doors, Frames and Ironmongery sets as well timber Window boards, Architraves and Skirting's where required, we also installed a large amount of internal cladding to the Gym and 'Monitor Centre'. We also supplied and installed Tea and Laundry Points for Staff, a large amount of Wall Protection, Acoustic and Standard Glazed Screens, Corian Worktops to Pre-installed timber carcassing and some external timber decking ..., we completed our involvement with the supply and installation of a couple of areas of 'Engineered' Laminated Flooring.

Project: Manchester City Academy Training Complex

Client: Bam / Role: Joinery Fit-Out

Value: £505,000.00
