

Media City
Salford Quays

Description

Nationwide Interiors were commissioned by our main contractor client, Lend Lease, to carry out works on the prestigious, and highly publicised Media City development at Salford Quays. We were instructed to supply and install a broad spectrum of bespoke joinery products throughout the project.

Nationwide's works included : supply and installation of sprung flooring, acoustic panelling, solid surface reception desks and counter tops, IPS panelling and vanity units, and door and ironmongery sets.

Our role as fit-out contractor on this project saw us on site for just less than 62 weeks, working our way up to the seventh floor of the commercial tower, above the prestigious new studios.
