

**Radisson Edwardian  
Manchester**

**Description**

Nationwide Interiors were awarded the internal fit-out package on the conversion of the famous and listed Free Trade Hall in the heart of Manchester city centre into a high specification & luxurious 236 bedroom hotel.

As an iconic building itself and also the first luxury hotel Radisson opened outside of London, we knew that this project would have to be completed on time, on budget and to the highest standard of finishes.

We were tasked with the supply and installation of American black walnut doors, door frames, skirting boards, flooring, bulkheads and access panels as well as the installation of MF ceilings, stud partitions, wall linings and ceramic and natural stone floor tiles.
